& VIA WEBEX

## **Metabolic view on sex hormonal status & health risk: a longitudinal metabolome-wide association study**

### **INTERVENANTS :**

- PROF JULIJANA IVANISEVIC  
HEAD OF METABOLOMICS AND LIPIDOMICS PLATFORM, UNI LAUSANNE – CH  
SENIOR LECTURER AT THE FACULTY OF BIOLOGY AND MEDICINE, UNI LAUSANNE – CH  
& BIOLOGIST

### **DESCRIPTIF :**

In this talk I will highlight the potential of metabolite signatures as an emerging phenotyping tool that captures *metabolic individuality* including the response to challenges due to our lifestyle, to facilitate the elucidation of molecular mechanisms underlying the onset and progression of non-communicable, metabolic disorders.

Recommandé par la Société Suisse des Spécialistes en prévention et santé publique (SPHD) pour la reconnaissance de la formation continue.
