## Care integration internationally – are we there yet and if not, what needs to be done?

### **SPEAKER :**

- NIAMH LENNOX-CHHUGANI (BSc, MSc, PhD, MCSLT)  
CHIEF EXECUTIVE AND DIRECTOR OF RESEARCH, INTERNATIONAL FOUNDATION FOR  
INTEGRATED CARE

### **SUMMARY**

In September 2022, the International Foundation for Integrated Care published the results of its first survey across its network asking people to share their views on what integrated care means to them and the features of integrated care that they thought were most important in their experience and context.

N. Lennox-Chhugani will share the results of this first annual survey and what it tells us about the state of integrated care in different countries around the world and what the direction for policy-makers and practitioners needs to be to progress care integration.
